

Accumulator ACU70

Maximize Efficiency with Fredrikson's ACU70-4

The Ultimate Accumulator

Introducing the Fredrikson's ACU70-4, a compact accumulator designed for the seamless accumulation of single packages. With a strategic inclination of 4° degrees, this model is an epitome of space efficiency. Crafted from stainless steel, it upholds the highest standards of safety, essential for modern production environments. The ACU70-4 stands out for its safety, hygiene, reliability and quick installation capabilities. It's not just an accumulator; it's a solution designed to enhance your production line's efficiency and reliability without compromising on space.

Flexible Installation Options

Customize the setup with either a separate electrical cabinet or integrated distributed frequency control to suit your specific needs

Space Saving Design

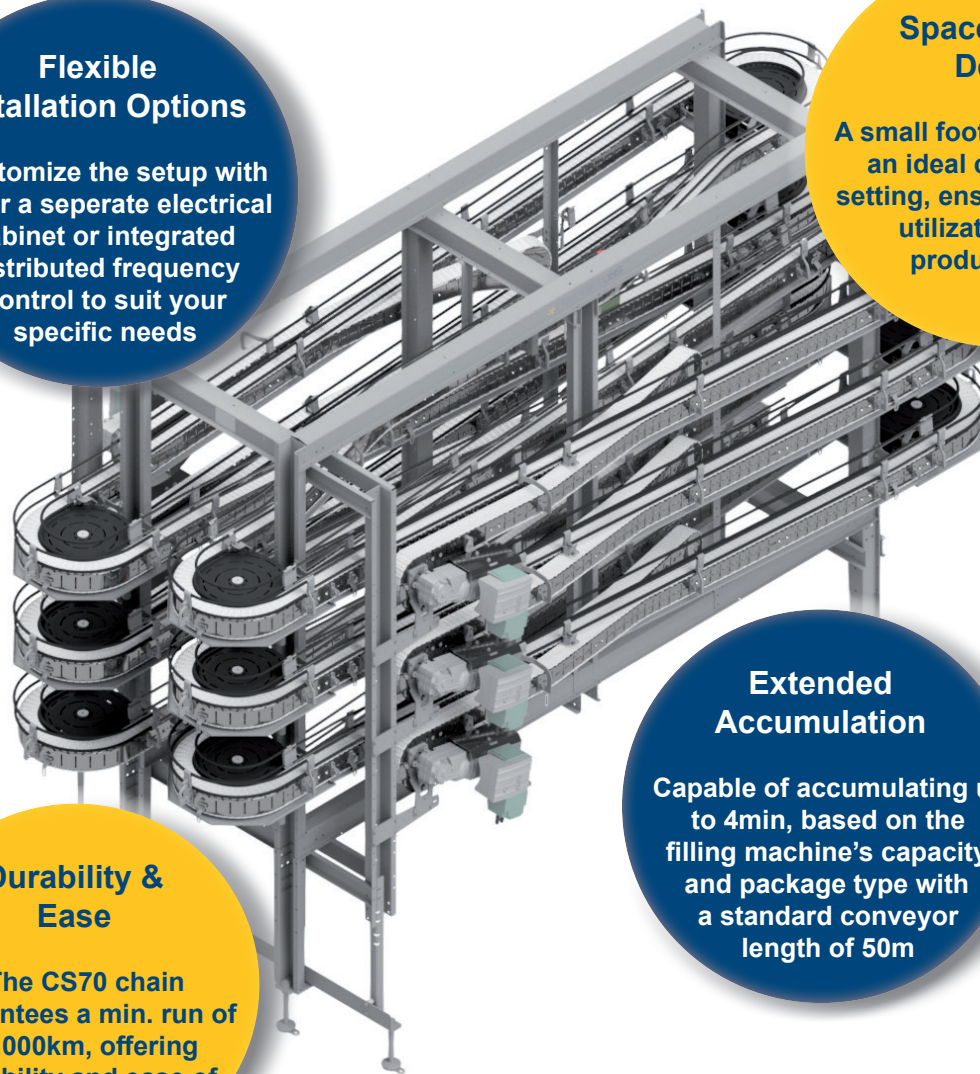

A small footprint makes this an ideal choice for any setting, ensuring maximum utilization of your production area

Extended Accumulation

Capable of accumulating up to 4min, based on the filling machine's capacity and package type with a standard conveyor length of 50m

Durability & Ease

The CS70 chain guarantees a min. run of 30,000km, offering reliability and ease of maintenance

Choose Fredrikson's ACU70-4 for a smarter way to accumulate, ensuring your operations are as efficient as they are effective.

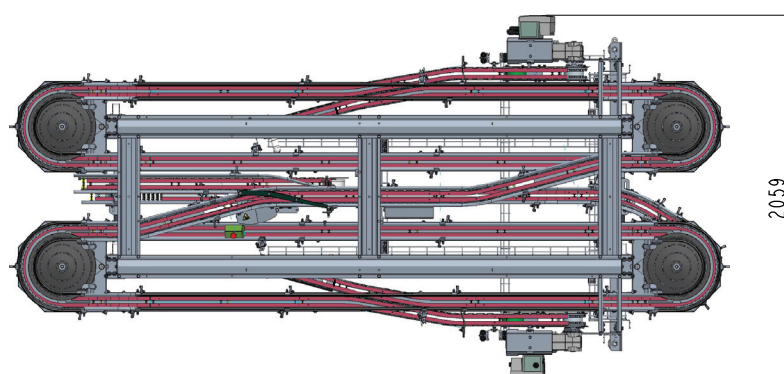

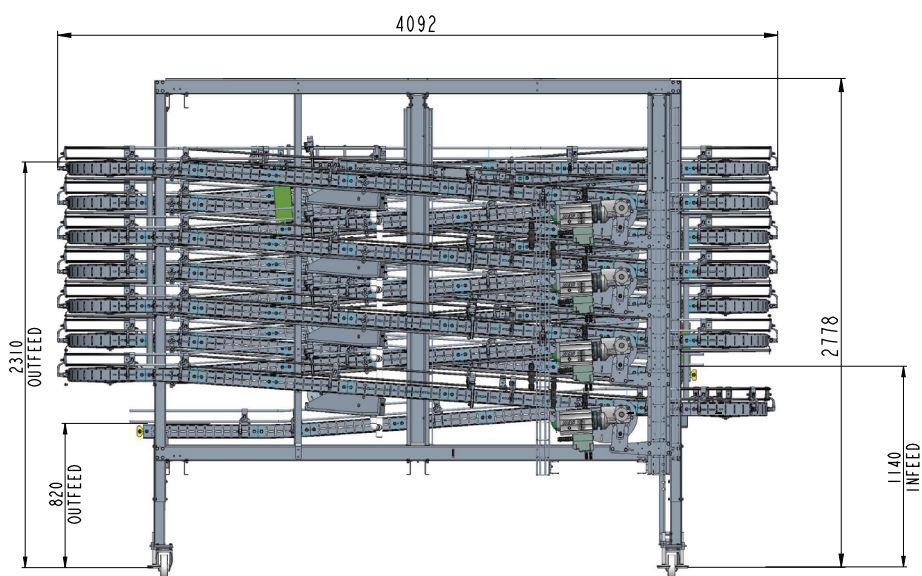

Technical data

Material	Stainless steel EN1.4301
Goods dim. max. LxWxH .	120x120x250 mm
Chain width	70 mm
Standard capacity.....	2 - 4 minutes accumulation *
Noise emission	~74dB
Infeed / Outfeed height...	850-1150±50 mm
Conveyor Inclination	4°

* Varies with product specification

Electrical data

Communication	Profinet or relays
Phase.....	3N~
Frequency	50/60 Hz
Voltage	400 V
Power consumption.....	Varies with product specification
